Enhance your memories

As storytellers, our attention to detail is impeccable, capturing the natural magic of your special day. Plus our relaxed approach will make your wedding as memorable as your timeless images.

An album is an important part of your wedding and should be passed down through your family. We offer a range of luxury albums and customised options to reflect your unique style. After all, what's one person's cup of tea, isn't another's.

We take the greatest care during the planning stages to create something truly unique to you, combining our artistic expression and your personal style.

The style, size and finish of your wedding album will be a collaboration between you and us, so the result is an exclusive tailor-made album that will remain a timeless keepsake of your special day.

We custom design, print and bind exquisite Flush Mount Albums, Coffee Table Books, Magazine Style Photo Books and Parent Albums, capturing your treasured moments forever.

Every album is unique, and we can deliver your finished album to you within four weeks, once you approve your final design.

Creating an album is always an exciting experience and is something you'll love and cherish forever.

- **Flash Mount Coffee Table, Photobooks, Parent Album**
- **Leather & Eco-leather Cover (various colors)**
- **Photo Cover (front)**

A few weeks after your wedding, we'll choose the photos and design for the first draft of your album – the way we see your day as artists.

We design your album as carefully as we would create one for our own wedding day.

Of course, your input is extremely important, so you'll be a part of the process, making changes to the album, by adding or removing pages and pictures. There are no limits to the design – it's as unique as your wedding day.

The first draft averages around 50-60 pages and you can make as many changes as you want on two occasions. Here's how it works.

We'll show you the sample design, let you add or delete photos, and then we'll show you the design with the changes you requested. You'll then have a further opportunity to make any other changes before your album goes to print.

Just so you know, we price our albums per page, not by the number of images.
